

UNCG MBA Mentoring Program Guide

2025 – 2026

The UNCG MBA Mentoring Program is designed to help connect students with experienced business professionals to foster professional growth, career development, and networking opportunities. Through meaningful connections, mentees will gain industry knowledge, career insights, and professional confidence.

Learning Objectives

- Mentees will be paired with a strong advocate in the business community to help grow their network.
- Mentors will support mentees by providing advice and guidance on career and professional growth opportunities.
